## Projects

### ★ Memory Power Game

Technology Used:- Html,CSS,Javascript

I have developed a Memory Power game using front end technologies. Currently i have created a webpage to showcase my projects

### ★ A ChatBot

Technology Used:- Java Programming Language

I have created a chatbot using Java, focusing on object-oriented programming principles. The chatbot is designed to [mention its functionalities, such as answering user queries or providing assistance]. This project allowed me to deepen my understanding of Java programming, enhance my problem-solving skills, and gain hands-on experience in software development and computer science.
